AI Tools: Ollama, local AI models, AI-assisted development

Developer Tools: GitHub, VS Code, TypeScript basics

PROJECTS

Context Titles — Obsidian Community Plugin

- Built and released a TypeScript plugin that improves Graph View readability.
- Added duplicate-only labels, folder context, custom separators, and settings.
- Published the project on GitHub and passed Obsidian community review.

Zoro — AI Voice Assistant

- Built a local AI voice assistant using Ollama and free AI tools.
 - Added simple features like opening apps, playing music, talking back, and responding to voice commands.
-

IT Hardware Practice - Dubiski Career High School

- Took apart laptops and desktops during IT class to learn how the parts fit together.
 - Worked on identifying parts, checking for hardware problems, and putting systems back together safely.
-
